

Mhd Ajmal

Summary

Hello, I'm Ajmal. I am currently pursuing my graduation in B.Com, but my true interest lies in the IT field. That's why I joined BroCamp to learn coding. Before joining BroCamp, I worked in the accounting field for a stone crusher, but I realized that I wasn't passionate about that line of work. I believe the IT field aligns better with my interests, even though I acknowledge that it might be challenging. I am determined to learn and succeed in this new endeavor.
